

Faster, Safer, Better Hosting

with Website Muscle & WP Engine

Website Muscle is proud to announce a new partnership with WP Engine for website hosting. We're excited to provide updated solutions that will improve your site's performance, strengthen security, and ensure continuity with daily backups.

Which Hosting Plan Is Right For You?

| | BEST VALUE | | |
|--|---|---|--------------------|
| |  WEBSITE MUSCLE |  WP engine | Other [†] |
| Local Management Don't wait on hold for tech support. Just call us! Website Muscle is your point of contact for all hosting and website-related issues. | ✓ | X | X |
| Ongoing Performance Reports We want your website to WORK for your business. Every quarter we'll send you a report of your site's traffic, conversions, and more -- we'll call you to discuss how your site is doing and how we can raise our game. | ✓ | X | X |
| Monthly Updates We'll login to your site every month to make sure that your WordPress platform and plugins are up-to-date, optimized and running properly. [‡] | ✓ | X | X |
| Site Backups With daily backups and one click site restoration , you don't have to worry about losing your website information - ever. | ✓ | ✓ | X |
| Performance Optimization Home pages and other common pages load 4-6 times faster on average than non-WP Engine servers. | ✓ | ✓ | X |
| Security Guaranteed Firewalls and malware scans proactively protect your information. And if you're using WP Engine's security and still get hacked, they'll fix your site at no cost to you. [‡] | ✓ | ✓ | X |
| Monthly Cost | \$100 | \$29 | \$6.99-24.99 |

Who Uses WP Engine?

WP Engine hosts more than 220,000 WordPress installations, serving billions of hits and thousands of terabytes of data each month. WP Engine uses Rackspace servers with a WordPress-specific solution that improves website loading times and overall performance.

[†] Theme updates or WordPress platform and Plugin updates which break the site in any way must be handled through our Client Support process at our standard hourly rate.

[‡] Requires compliance with communicated site security precautions.

[‡] Reflects standard features and non-promotional pricing for entry-level WordPress-specific hosting packages from our most popular hosting competitors: 1&1, BlueHost, DreamHost, GoDaddy, HostGator, and Siteground. Does not include installation or transfer services.

[‡] Content Delivery Network is available for an additional charge.

Website Muscle accounts hosted by WP Engine include 1GB of storage and up to 10,000 visits per month. Our pricing is subject to change, but **ask about our annual discount options!**

Updated July 18, 2016

Why Host With Us?

Daily Backups
Automated, redundant systems for your critical applications.

Firewall
Multiple powerful firewalls between your data and threats.
